Skills: Proficient in Python/Django, HTML, CSS, Java; working knowledge of SQL, Javascript; experience hacking Android devices; worked with Git, GitHub, and Ubuntu

Projects

Personal Website: <http://kevarifin14.github.io/>

- Designed website of my personal blog with reviews and reflections of books and movies

Fitness Django Project: <https://github.com/kevarifin14/fitness>

- Self-taught Django web framework through developing a project that allows users add exercises to a repository, create workouts, and add them to a weekly calendar

Taboo Django Project: <https://github.com/kevarifin14/taboo>

- Built a taboo game on the Django web framework focusing on user interface and design

Flappy Bird Clone: <https://github.com/kevarifin14/flappyclone>

- **Learned Pygame module to replicate the original Flappy Bird**

Check out the rest of my work at my github page: <https://github.com/kevarifin14>

Experience

Berkeley Engineers and Mentors (Fall 2014-Present)

- Inspired young students' love for science by leading them through experiments
- Developed leadership and team building skills through weekly workshops

Intern at Jackery Inc. (Summer and Fall 2014)

- Analyzed social media data via Facebook and Twitter, established corporate contacts to market products, and researched nonprofit organizations to sponsor

Tijuana Service Trip (Spring 2012, 2013, 2014)

- Led group of twenty students to build a house for impoverished families

About Me

Talent, height, and intelligence are all out of my control, but I can control my passion and perseverance. Here are a few tidbits about my life to help you get to know me better:

- Played four years of high school basketball earning Best Work Ethic Award for the 2013-2014 season
- Love to play the guitar and sing, passionate about health and fitness, and enjoy being in nature and reading!
- Recipient of Cal Alumni Association Leadership Award and Bellarmine Campus Ministry Award
